

# KNAPHEIDE CONCRETE BODIES

The Knapheide Concrete Body has everything a concrete contractor needs in a work truck. This rugged truck body gives you a multi-functional material rack, ample hauling space, secure storage and a fold-down tailgate for cargo access. Get it all done with the Knapheide Concrete Body.

## STANDARD FEATURES

- PVMX platform base; 11 gauge high tensile strength cross sills on 18" centers with 5" structural C-channel long sills
- Side and end rails are constructed of 12 gauge high tensile strength steel
- Roughneck Toolboxes: One above body and one underbody toolbox on each side of the body
  - Toolboxes include double panel door construction and automotive quality, paddle activated rotary slam latches
- Screened window bulkhead is contoured to conform to the lines of the cab, while offering maximum visibility
- Material Rack is rated for 1,500 lbs., is side forklift loadable, has swing-away rear cross bar and removable intermediate cross bars for loading taller items, and has tie down hooks to help secure your items
- ICC Bumper for under ride protection
- Aluminum tread plate rock guards installed on the front of each underbody toolbox
- Full height tailboard at the rear of the above body toolboxes to separate the bed space
  - 14" removable contractor sides
  - 14" drop down contractor tailgate
- Standard in black finish paint
- Complete immersion in Knapheide's electrodeposition prime paint system provides superior corrosion resistance

\*Body may be shown with optional features
